MADE IN MADRID
MADE FOR YOU

NEUROMUSCULAR + RADIOFREQUENCY SYNCHRONIZED

WonderFace is a revolutionary medical-aesthetic device that is transforming facial muscle toning treatments in the beauty industry.

By ingeniously integrating Neuromuscular emissions with Radiofrequency technology, WonderFace targets key facial muscle groups, delivering unparalleled results in facial rejuvenation.

BECAUSE BEAUTY IS IN THE MUSCLE

WONDERFACE completely changes the game in the field of facial beauty treatments. It is the new treatment for facial sagging and lack of skin firmness on the face. It simultaneously treats the skin and facial muscles thanks to the unique combination of Synchronized Radiofrequency (RF) and Neuromuscular technology. In this way, it remodels and tightens the skin by heating the dermis and increasing collagen and elastin fiber levels.

Neuromuscular emissions work directly on the facial muscles, helping to tone them and improve firmness, especially in problem areas such as the zygomatic muscles, frontal muscles, and platysma (double chin).

On the other hand, monopolar Radiofrequency is known for its effectiveness in stimulating collagen production and tightening the skin, resulting in a younger and firmer appearance.

UNPRECEDENTED INNOVATION:

We have brought you the most futuristic engineering:

MULTI-USER SYSTEM:

WONDERFACE allows you to treat 2 patients simultaneously.

CONTROL BY TABLET:

All device management in your hands and remotely.

CLOUD SOFTWARE:

Track progress accurately and manage your WONDER from anywhere.

THREE SIMULTANEOUS ZONES:

- **Frontal:** Produces skin tightening and increases muscle tone.
- **Zygomatic:** Reduces nasolabial folds and has a preventive effect.
- **Submaxillary:** Reduces the double chin.

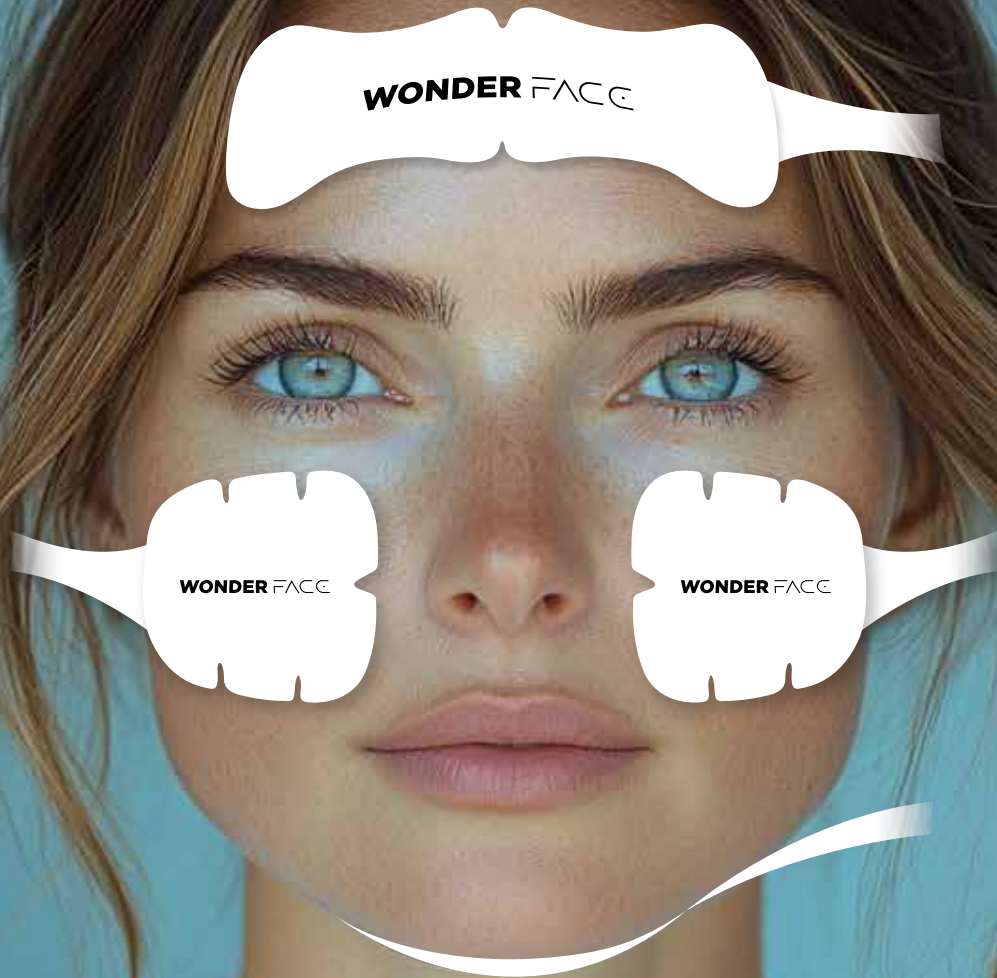

UNPRECEDENTED TECHNOLOGY:

The combination of Neuromuscular technology and Synchronized Radiofrequency in facial treatments with WONDERFACE offers you several benefits:

- **Deep Facial Rejuvenation:**
Radiofrequency generates heat in the deeper layers of the skin, promoting collagen and elastin production.
- **Muscle Stimulation:**
Neuromuscular technology stimulates the facial muscles, which can help tone and improve the facial contour.
- **Improved Circulation:**
The heat generated by Radiofrequency can increase blood circulation in the treated area, leading to more radiant and healthier-looking skin.
- **Non-Invasive Treatment:**
No cuts or surgery are required, which reduces recovery time and the risks associated with invasive procedures.
- **Visible Results:**
Smoother, firmer, and rejuvenated skin after undergoing treatments with Neuromuscular technology and Synchronized Radiofrequency.
